

The Wharf at Clear Lake

Questionnaire/Survey

The year 2012 will hopefully see the completion of a multi-year project of painting and siding repair that has consumed all the discretionary funding available within the WHOA budget. The Board of Directors and the Property Manager will use this transition year to plan and finalize a plan of attack that will work best to complete the previously identified projects and others that may be considered. With this questionnaire we ask the home owners to offer input and suggestions as to the implementation of these projects.

1. In the past landscaping is an area in which many home owners have expressed a desire to have the flexibility to have more control over the landscaping that surrounds their town home.

Would you be interested in participating in planning and implementation of landscaping changes around your home or building?

Would you be willing to serve on a committee to find the best ways to plan and implement this project? If so, please list your name and email address below...

2. At the annual home owner's meeting in 2010 in his final remarks the President of the Board of Directors asked the question if there was an interest in changing the color of the paint on our town homes. This question currently resides with the WHOA ACC committee. Please indicate below with a "YES" or "NO" answer your opinion as to the desirability of this project.
3. Please list any other projects, make comments, and/or express concerns that you would like the Board of Directors to consider.
